

6 – 8 YEAR OLDS

What's the best thing about Beaver Scouts?

Activities, trips and making friends are all part of what makes it so much fun for girls and boys.

As well as earning activity badges, many Beavers Scouts get to go on camps and sleepovers, often for the first time.

Beaver Scouts enjoy:

- Being creative – making things and singing
- Playing games
- Going on visits and investigating nature
- Learning about themselves
- Getting to know other people
- Discovering the worlds of science, nature and technology
- Exploring the natural and manmade world.
- Caring – responding to the needs of others, the local and international community.

8 – 10½ YEAR OLDS

Cub Scouts enjoy new adventures while making new friends along the way.

Their commitment is recognised by over thirty activity badges.

As well as regular weekly meetings, Cub Scouts also enjoy activity days, weekend camps and pack holidays.

Cub Scouts are boys and girls who:

- Go camping
- Play games
- Explore the outdoors
- Try adventurous activities – such as climbing, sailing and archery
- Meet people from their local community
- Experience the culture of other countries
- Keep themselves and others safe.

10½ – 14 YEAR OLDS

What don't Scouts do?

At this age, we encourage girls and boys to take responsibility for themselves and each other, with older members leading a small team.

They like being with friends and participating fully in life's adventures!

In the Scout Troop, young people:

- Develop leadership skills
- Learn emergency aid
- Spend nights away - the summer camp is often the highlight of the year
- Help others in the community
- Cook, both at home and at camp
- Try adventurous and sporting activities – anything from abseiling to zorbing
- Learn survival skills.
